Description

MEN 5075

From award-winning designer Michael E. Nelson comes a stunning addition to our European House Collection. Primrose will wow guests as they drive up to your home with its beautiful European style design. Walk through the Foyer and into the beautiful Great Room with a vaulted timber beam ceiling and stone fireplace. Entertaining is made easy with the open floor plan design that lets the Great Room flow right into the large Kitchen and connected Dining Room. A center bar island with seating for six offers plenty of gathering space, and a corner fireplace allows you to enjoy the spacious Grilling Porch on warm and cold days! Down the hall from the Kitchen, on the left side of Primrose, are Bedrooms 2, 3 and 4, along with a full bathroom to share. While Bedrooms 3 and 4 are equally spacious with walk-in closets, Bedroom 2 lies across the hall and enjoys a vaulted ceiling. The bathroom lies adjacent to Bedroom 2 and features a dual vanity sink

and private toilet/shower room. Privately located on the other side of the Primrose home plan is the spacious Master Suite. The bedroom features a beautiful boxed ceiling, while the Master Bath has plenty of amenities for you and your spouse, including a free-standing tub and separate glass shower, a dual sink vanity, and a huge walk-in closet. You'll also notice you have direct access to the Laundry Room from the Master Bath for the utmost convenience! As an added "bonus" the upper level features a spacious Bonus Room above the 2-car Garage, complete with an extra full bath! How would you customize this amazing house plan?
