Description

MEN 5301

From award winning home designer Michael E. Nelson comes Birchwood Cottage, a beautiful Farmhouse plan perfect for those looking for an affordable starter plan. Wooden columns and railings frame a beautiful covered front porch with metal roofing for curb appeal like no other. Birchwood Cottage offers a spacious open floor plan, 3 bedrooms, 2 bathrooms, and tons of outdoor living potential on the spacious front and back porches.

Open Floor Design

After taking in all that the covered front porch has to offer, head on into the great room to find a large living space featuring vaulted ceilings, a tall brick fireplace, and a great view of the kitchen

and dining area. A great eat-at bar frames the kitchen and offers tons of entertaining potential. Both the kitchen and the dining area offer a great view of the backyard. An adjoining pantry offers plenty of storage for your kitchen needs. A walk-through laundry room leads to the backyard as well.

Main Level Bedrooms

On the left wing of Birchwood Cottage, you'll find the spacious master suite, which features an optional vaulted ceiling and windows on each exterior wall, offering tons of natural light. You'll also discover the large walk-in closet and master bathroom, complete with a double vanity, private toilet room, and large shower. On the opposite end of Birchwood Cottage, you'll find bedrooms 2 and 3 separated by their two walk-in closets. A bathroom in the hallway offers easy access for both guests and kids.
