Description

MEN 5304

From award winning home designer Michael E. Nelson comes a stunning addition to our European House Collection. Inspired by a longing for all things luxury, Southbend Manor comes in at just over 5000 sq. ft. A combination of brick and stone pair together in a soft white color with neutral accents for a striking curb appeal. Large picture windows frame the beautiful double door entrance, while subtle arches over the windows speak to the European inspiration of Southbend Manor. Offering tons of entraining potential, Southbend Manor is an open floor plan concept that offers 3 bedrooms, an open study, game room, and tons of storage potential.

Open Floor Design

Inside, you will find yourself fixated by the spacious foyer. To your left you'll find the open dining

room and the large study/office to your right. Large openings in each room lead into the great room featuring large picture windows, a cozy fireplace, and built-in shelving to frame the fireplace perfectly. A spacious kitchen offers tons of entertainment options with a double kitchen island and a large eat-at bar top. A walk-in pantry offers great storage for all your kitchen items. A breakfast room attached to the kitchen offers amazing views of the screened in back porch. To the west of the kitchen, you'll find the stairway leading to the upstairs game room, the entrance to the master suite, access to the connected laundry room, and access to the 4 car garage.

Main Level Master Suite

Leading into the master suite of Southbend Manor, you'll find large picture windows, as well access to the screened porch, offering tons of natural light. The master bathroom offers two separate vanities for plenty of room to get ready in the morning. A free-standing bathtub offers great views of the glass shower. A private toilet room offers great privacy for the shared bathroom. Access to the large master closet also leads directly into the spacious laundry room, offering tons of ease on laundry day.
