Description

MEN 5198

From award winning home designer Michael E. Nelson comes Billington Place, a beautiful traditional house plan perfect for your next home build. With a spacious open floor plan, 3 bedrooms, 2 bathrooms, and an optional bonus room located over the garage, Billington Place offers the perfect amount of space for your growing family. A stunning brick exterior with wooden accents offers curb appeal that will last throughout the years.

Open Floor Design

Upon entering Billington Place, you're greeted with a foyer that accesses the garage and the stairs leading to the bonus room. Led straight into the great room, you will be stunned by the beautiful brick fireplace, along with the natural light offered by the window stretching across the rear of the

home. A large eat-at island opens up to the large kitchen, illuminating the cabinet and pantry storage, perfect for storing all of your kitchen essentials.

Main Level Master Suite

The master suite of Billington Place features a 10' boxed ceiling and tons of natural lighting, mimicking the lighting in the great room. The master bathroom holds a double vanity, private toilet room, and glass shower. Past the master bathroom, you'll find the spacious walk-in master closet, ideal for sharing the space with your significant other.
