Description

MEN 5323

From award-winning designer Michael E. Nelson comes the newest addition to our Farmhouse House Collection. Brookvalley Place is a functional open floor plan with curb appeal that is sure to stand out. Stone accents spanning vinyl siding paired with French windows make this farmhouse look even homier. A two-car garage offers a versatile space that will surely satisfy your storage needs. Welcomed inside by a cozy covered porch, you will find stunning vaulted ceilings above the open space shared by the great room and kitchen, perfect for entertaining guests. To the right of the kitchen is the dining room, equipped with large windows to allow for the perfect amount of natural light. On the opposite side of Brookvalley Place, you will find the bedrooms, all with vaulted ceilings. The spacious master suite also enjoys optimal natural light, and the master bath brags of

dual vanities, a free-standing tub, and a walk-in shower. Bedrooms 2 and 3 share a bathroom in the hallway just outside bedroom 3, which lies just across from the laundry room. Upstairs you will find a bonus room which you can customize to your needs, whether that is a multi-purpose room or another bedroom. You can even choose to install a half bath. How would you customize this amazing house plan?
