Description

MEN 5346

From award-winning designer Michael E. Nelson comes the newest addition to our Farmhouse House Collection. Blueberry Hill offers a unique floor plan that will leave you itching to have it. A classic front porch brings back tradition in welcoming guests, and three gable dormers beside a tall chimney scream, “curb appeal.” Upon entry, you will find the master suite to your right and an open space, home to the great room and a cozy fireplace to the left. From there you will find the kitchen, equipped with an eat-at island and a walk-in pantry. Across from the kitchen is a dining area, where a farm table will make you feel right at home. A grilling porch is also located here, offering a unique alternative to the traditional rear porch. The master suite of Blueberry Hill opens from the suite itself to a hallway which holds two walk-in closets and enters the luxury master bath,

complete with a free-standing tub, a walk-in shower, and dual vanities. Bedrooms 2, 3, and 4 are located at the rear of the home and all share a bathroom across the hall. Here you will also find a mudroom/laundry room, where you can access the two-car garage. This plan also includes a bonus room and full bathroom upstairs, as well as an optional basement. How would you customize this amazing house plan?
