Description

MEN 5348

From award-winning designer Michael E. Nelson comes the newest addition to our European House Collection. St. Clair Place is a luxury open floor plan with a unique layout that is sure to impress. A white exterior with stone accents, wooden shutters and garage doors, and an arched entry make for the perfect amount of curb appeal. Inside you will find a breathtaking great room open to the kitchen, which features a center island that “T’s” into an eat-at peninsula. An L-shaped counter separates the kitchen from the breakfast nook, and a formal dining room lies on the opposite end. Accessible from this open space and the master suite, an outdoor living space complete with a kitchen, fireplace, and outdoor shower, makes for the perfect place to gather outside. The left side of St. Clair Place holds the luxury master suite, fully equipped with spacious

his and her closets. Indulge yourself in the master bath of your dreams, complete with a large walk-in shower, a free-standing tub, and two separate vanities located across from each other. The opposite side holds bedrooms 2 and 3, each with private bathrooms and walk-in closets. Upstairs you will find a bonus room, a bathroom, and an optional media room. This plan also allows you to add a basement. How would you customize this amazing house plan?
