## Description

### SMN 1074

From award-winning designer Seth M. Nelson comes the newest addition to our European House Plan Collection. Spring Street offers a unique layout for your next home build. The modern black siding exterior offers a striking alternative for your curb appeal. An open space shared by the living, dining, and kitchen with an eat-at island offers tons of potential for entertaining guests, or gathering together for family dinners. An open patio adds to this element, making for the perfect outdoor living space to enjoy those relaxing summer nights. The master suite of Spring Street allows for both function and luxury, with a spacious bedroom and a clawfoot tub in the master bath. Two more bedrooms and an additional bathroom are located upstairs, and a garage complete with a storage closet is sure to satisfy your needs. The slightly narrow shape of the

foundation of Spring Street allows for building on smaller/deeper lots as well. How would you customize this amazing house plan?
