Description

MEN 5385

From award-winning designer Michael E. Nelson comes the newest addition to our European House Plan Collection. With over 8700 sq ft, Sierra Place is one of our largest stock plans to date. Three levels offer tons of sprawling space for your growing family and even multiple generations. On the main level you'll find multiple dining areas, an open floor plan concept in the great room and kitchen, complete with a large eat-at island, and a stunning grilling porch with a cozy fireplace making for the perfect outdoor living space. The master suite of Sierra Place leaves nothing to be desired, with a massive his and her closet featuring a built-in dresser. The real gem, however, is the master bath, boasting of tons of space, a huge, double entry tile shower, a free-standing tub, and not one but two private toilet rooms. Three bedrooms are found on the opposite side of the

home, each with a walk-in closet and private bath, along with a spacious study. The upstairs features a game room and wet bar, as well as private guest room quarters, while the lower level is home to a huge open family room, more bedrooms, a home theater, a second kitchen, and a separate in-laws suite with its own private entrance.
