Description

MEN 5357

From award-winning designer Michael E. Nelson comes the newest addition to our Cottage House Collection. Overlook Cottage puts the “cozy” in “cozy cottage.” A classic entry porch makes for a warm welcome to guests and adds so much to the curb appeal of this home. Inside you will find an open space holding an impressive kitchen with lots of counter space and a center island. A nice dining area separates the kitchen from a spacious great room, which features a cozy fireplace. This space seems even bigger, as it opens from above, sharing a ceiling with the upstairs. Enjoy relaxing evenings on the open deck, which wraps around the rear of Overlook Cottage. This deck can be accessed from the master suite, which enjoys a walk-in closet and a full master bath, complete with a private toilet room, dual vanities, and a walk-in shower. Upstairs you will find

bedrooms 2 and 3, which share a full bathroom in a hallway overlooking the great room from a balcony. How would you customize this amazing house plan?
