Description

NDG B1052

A stunning addition to our Barna Log House Collection, The Winchester welcomes you inside with a short stone staircase leading you onto the gorgeous entry porch. This porch is angled between two adjoining decks, which each continue along the side and front of the home into porches. Stepping inside, you are first met with a staircase leading to the upper level, along with a stone fireplace, separating the Kitchen/Dining space from the Living Room. The Living Room is surrounded by windows looking out onto the front Gabled Porch and side decks. Toward the rear of the home, the Kitchen features a center eat-at island, as well as the option either to spend time in the Sunroom or get some fresh air on the side Porch and adjoining Deck. The Dining space has plenty of room to suit a decently sized table, and a nearby half bath makes it easy for quick relief.

Adjacent to the Sunroom and Dining space is the large Laundry Room, holding “loads” of counterspace and plenty of storage for extra linens when guests visit.

On the left side of The Winchester, you will find your luxurious Master Suite. The master bedroom looks out onto the front deck and even features entry to your own private side Porch. You will also find a modest closet beside a huge walk-in closet, which also houses a separate vanity for ultimate privacy. Adjacent is the Master Bath, where you will find an additional vanity, a corner shower, and a relaxing whirlpool tub. The upper level has a spacious Loft overlooking the Living Room below that would be perfect for the kids to share! With plenty of closet and attic space, board games and toys will always have a place to be stored, and a Covered Porch on each side of this floor ensures that time is not always spent indoors. Bedrooms 2 and 3 are also located up here, with Bedroom 3 enjoying a private Covered Porch and private access to the hall bath. Bedroom 2 is slightly smaller than Bedroom 3 but a little wider in size. How would you customize this amazing house plan?

NOTE: Barna plans are intended for log exterior walls. Converting these to 2X6 exterior walls requires modification and will be subject to additional modification cost. Contact one of our home plan specialists today to discuss modification requirements by emailing
