Description

NDG 596

A stunning addition to our Arts and Crafts House Collection, Elm showcases wonderful detailing that warmly invites friends and family into a home reflective of the Craftsman Era. A covered porch leads to a Foyer separating Bedrooms 2 and 3, along with the hall bath in between, from the rest of the home. The Great Room entry is flanked by 8" columns, and within, a media center complements the cozy fireplace for ultimate gathering, while a hidden computer center will prove perfect for study time or a small home office. A spacious Kitchen with bar seating joins with the Dining Room to share a wall of windows for plenty of natural lighting. Conveniently located near the 2-car garage entry is a kid's nook with a bench to help keep family areas clutter-free. Also nearby is a charming Grilling Porch, which your designated grill master will appreciate. To the left

of the Elm house plan, you will find your luxurious Master Suite. The master bedroom lies below a 10-foot boxed ceiling, and the Master Bath is fully equipped with a large walk-in closet, whirlpool tub, and a separate shower with a seat. How would you customize this amazing house plan?
