Description

MEN 5026

From award-winning designer Michael E. Nelson comes a stunning addition to our Craftsman Bungalow House Collection. The use of a variety of materials, like brick, stone, and shake siding give Cedar Mountain a rustic feel that draws you and your guests in. Double entry doors lead into a brief foyer, partially open to the sloped ceilinged Dining Room to the left. Just ahead, open floor plan allows the Great Room and Kitchen to flow seamlessly together, sharing a cozy fireplace and a high bar with seating for 10. Exposed timber beams on the ceiling add even more rustic flair, and the Breakfast Nook's 12-foot boxed ceiling accentuates the natural light provided by the bank of windows. From here, you can also access the Outdoor Living Grilling Porch, where entertaining is made easy with a fireplace, outdoor grill, and plenty of space for your family and friends!

When the festivities come to a close, retire to your Master Suite, privately located on the left side of Cedar Mountain. The master bedroom looks out onto the front and rear of the property, while the Master Bath offers amenities of his and her vanities, a whirlpool tub, large corner glass shower, and a massive walk-in closet. You are also just a few steps away from the spacious Laundry Room, making the day for this chore easy! Entries and exits are made with little to no hassle, with access to the 2-car garage and a modest step-in closet nearby. The kids' bedrooms are found on the opposite side for a peaceful split bedroom design. All three bedrooms enjoy sizeable closets, and Bedroom 3 boasts a private bath, while Bedroom 4 features private access to the hall bath. How would you customize this amazing house plan?
