Description

This beautiful home features a blending of French elements with modern flare that are presented throughout its open split-bedroom floor plan. The brick and stucco exterior features multiple columns and various roof heights for a striking curb appeal. The covered front porch leads to the open, vaulted foyer and the Great Room beyond. The spacious Great Room features a gas fireplace and is adjacent to the dining room, followed by the breakfast room and hearth room that all encircle the raised kitchen. This beautiful unique kitchen is raised a couple of steps and offers a large eat-at island bar with plenty of wrap-around counter space and allowing for perfect visiting opportunities to each of these rooms. You're sure to enjoy the patio and garden area, walled in for privacy, accessible from the atrium doors of the breakfast room. Next to the hearth room is the laundry room and a convenient half bath. On the right side of the home is a spacious office with plenty of windows and is accessible from the Master Suite through French Doors. The master bedroom offers plenty of space with a most impressive bathroom that features a large corner glass
