Description

NDG 100

A stunning addition to our European House Collection, Cherry Street will have you wondering if you stepped into a fairytale. Its classic brick exterior and arched windows and entry paired with French accents will take you back to a time of regality. Greet guests from a double-door entry and stunning foyer. Just ahead is the spacious Great Room, where entertaining with family and friends becomes a ritual with a fireplace to add warmth. The rear porch steps out onto a beautiful deck, transforming into a breathtaking outdoor living space complete with a spiral staircase leading to below. The kitchen boasts tons of counterspace, and a center eat-at bar overlooks the cozy breakfast nook, which sits before a lovely bay window.

An impressive split bedroom design makes this home a dream come true. On the left side of

Cherry Street, you'll enjoy the pass-through fireplace from the sitting room in your secluded Master Suite, and an 11-foot pan ceiling accentuates the beauty of the bedroom. The luxurious Master Bath features two separate vanities with a spacious linen closet, a large corner shower and whirlpool tub beside it, as well as a private toilet room. An enormous walk-in closet with two entries and a wall of built-ins satisfies every woman's fantasy. The kids will enjoy doing their research projects in the library conveniently located outside the kitchen. Traveling upstairs, the children will find all the room they need with three bedrooms and a large playroom. How would you customize this amazing house plan?
