Description

NDG B1064

A stunning addition to our Barna Log Home House Collection, The Sunset Ridge is the log home that will suit your whole family's needs. Stone accents complimenting the log exterior make for a cozy atmosphere right out the gate, while a breezeway connecting the home to the 3-car garage gives the home an element of grandeur. Stepping into the foyer from the large porch below a breathtaking vaulted ceiling, you are met with stairs to the upper level, a large office to the right, and a coat closet to your left. Ahead is an expansive family room, which is separated from the large great room and fireplace by two stunning wood posts, carrying the charm of a log home indoors. To the left, you will find the dining area open to the kitchen, which boasts tons of

counterspace, including a center prep island. Down the adjoining hallway is a half bath and spacious laundry room.

The opposite side of The Sunset Ridge is occupied by the spacious Master Suite, which enjoys private access to the massive deck outside. The master bath offers a relaxing soak in a whirlpool tub by the window, as well as a dual sink vanity and a large walk-in closet. Upstairs, you will find all the space you could ask for! A large guest bedroom holds a private bath and walk-in closet on one side, while the other side holds bedrooms 2 and 3, each with their own bathrooms. In the middle is a sleeping loft open to below, and two large rooms are available at the far right end for future expansion. How would you customize this amazing house plan?

NOTE: Barna plans are intended for log exterior walls. Converting these to 2X6 exterior walls requires modification and will be subject to additional modification cost.
