Description

NDG 1641

A stunning addition to our Riverbend House Collection, Weekend Retreat II is perfect for your main home or a charming vacation cabin. The accents of shake siding and stone work with the simple metal roof and board and batten siding to compliment a rustic, natural setting. The wrap-around porch is the perfect place to enjoy a beautiful view and a great cup of sweat tea on a summer afternoon.

Main Level Living

Inside you will find yourself in the spacious Den that displays a beautiful fireplace. The open floor plan allows the Den of this cabin house plan to flow into the kitchen and dining room, creating a great space for family and friends to gather and create precious memories together. The Kitchen

offers a large island with a high bar and seating, as well as a walk-in pantry for added storage. A large window over the sink gives you an enjoyable view while cooking and doing chores. Located on the main floor to the right, the Master Suite not only has a spacious bedroom, but also a large walk-in closet with tons of shelving and storage space. The Master Bath gives you all the amenities you need, including a private toilet room, glass shower, large linen closet and dual sink vanity. Also on this floor is the laundry room with ample counterspace for folding, as well as a half bath.

Unfinished Areas

Upstairs is an additional full bath, a second bedroom, and a convenient linen closet. If additional space is desired, you can finish out the unfinished area for an additional 326 square feet. The basement consists of a full bathroom and two large unfinished spaces that can serve whatever purpose you need! With both spaces together making up an additional 1287 square feet to the home, this basement can make for the perfect game room, home theater, or flex space for your family!

Outdoor Living

Another great feature of this cabin are the outdoor living spaces! The wrap-around porch on the main level transitions into a grilling porch on the left side, then a large deck at the rear, with various points of entry throughout, including from the walk-in pantry! The basement also features a relaxing patio below the deck. How would you customize this amazing house plan?
