Description

NDG 1620

A stunning addition to our Farmhouse House Collection, Sedgewick Cove blends the warmth of country living with classic Southern tradition in a detailed porch with round columns on stone pillars. Stepping inside, the foyer leads you straight into the open floor plan, allowing the great room, breakfast room, and kitchen to flow together seamlessly. A built-in media center flanks the stone fireplace in the great room, which follows a wall of windows into the breakfast room/kitchen combination. An eat-at bar counter separates these two spaces, and moving through the kitchen toward the front of the Sedgewick Cove home plan and through a swinging door, you will find yourself in the dining room, which also opens to the foyer. Straight across through the foyer is Bedroom 2, which can also serve as a study, complete with a large walk-in closet. Across the hall to the right is a full bathroom with a double sink vanity. Following this hallway toward the rear of

the home will take you to Bedroom 3, which also enjoys a spacious walk-in closet. On the left side of Sedgewick Cove, just past the laundry room, the large master suite privately accesses the column-lined rear porch for relaxing nights outside. The master bath has tons of space and features a corner whirlpool bath, a corner glass shower with two seats, a makeup area, and a large walk-in closet. Upstairs, you'll find several bonus rooms with creative ceilings and dormer windows, as well as a full bathroom in between. The 3-car garage offers all the space you could ask for and includes an extra storage closet. How would you customize this amazing house plan?
