Description

This unique design by Nelson Design Group offers three exterior selections for you and your home builder to choose from. Brick, stone and a combination of both allow you to achieve the street appeal that will best suit your neighborhood. The covered entry leads into the foyer with French doors to the study or den. The open great room features a boxed ceiling treatment as well as a gas fireplace. The step saver kitchen has a convenient walk-in pantry with a snack bar open to the dining area. The courtyard is accessed from the great room and can feature an herb garden. The master suite is tucked to the rear of the design for privacy.
