Description

NDG 1392

A stunning addition to our European House Collection, Lacy's Plan features a charming combination of brick, stone, and shake siding, along with various European accents creating curb appeal your neighbors will envy. The Foyer is partially open to the Dining Room to the right, and straight ahead the open floor plan allows the Great Room with a vaulted ceiling and a fireplace to flow seamlessly into the Kitchen and Breakfast Room. An eat-at bar island in the Kitchen provides plenty of room for the family to gather before meals, and an optional Screened Grilling Porch with a corner fireplace is sure to encourage quality time together during all seasons. At the end of the day, retire to your luxurious Master Suite with your partner. Located on the right side of Lacy's Plan, the master bedroom lies below a stunning boxed ceiling. Continuing toward the rear of the house plan, the Master Bath lacks no amenities, with a whirlpool tub and separate shower, dual

sink vanity, and large walk-in closet. The right side of the home also holds the Laundry Room beside the garage entry, as well as a built-in desk and kids' nook in the adjoining hallway. Bedrooms 2 and 3 are found on the opposite side of the house, with Bedroom 2 featuring a cozy bay window looking out to the front yard. A full bath with dual vanities can also be found in the hall, between these bedrooms. A spacious Bonus Room is available above the 2-car garage to suit any additional needs.
