Description

MEN 5027

From award-winning designer Michael E. Nelson comes a stunning addition to our European House Collection. St. Charles features tons of amenities and space, and the elegant stone and brick exterior creates eye-catching curb appeal. A side load-3 car garage with tons of extra storage space can be found on the right side of the home, and entry from here will take you straight into the Kids' Nook and Laundry Room. Inside, arched openings help to separate spaces while still maintaining the flow of an open layout. The spacious Great Room is boasts a cozy fireplace with built-ins and joins with the luxury Kitchen by a high eat-at bar and large prep island. Transom windows span the Great Room and Breakfast Room to flood this open space with natural lighting and provide a great view of the Outdoor Living Space, complete with an outdoor fireplace.

The Master Suite is sure to spoil you, not just with space and amenities, but also with privacy, as it occupies almost the entire left wing of St. Charles. The master bedroom is accentuated by a charming boxed ceiling, and the Master Bath has an oversized shower, a free-standing tub, his and her vanities with a makeup station, and two huge walk-in closets. Bedrooms 2 and 3 are located on the opposite side of the home with spacious closets and a Jack and Jill bath between the two. Just steps away from Bedroom 3 is a room which can be used as an additional bedroom or home office, and a hall bath lies adjacent. Upstairs is a large bonus room with a full bath and sizable closet, perfect for a teenager in need of their own space. How would you customize this amazing house plan?
